PHYSAN 20®

CONCENTRATED ALGAECIDE & DISINFECTANT

Fountains, Bird Baths & Decorative Water Features

Professional-grade algae control for crystal-clear water displays and architectural features.

⚠️ DO NOT USE WITH FISH OR AQUATIC LIFE

Physan 20 is strictly formulated for decorative water features, bird baths, and fountains without fish.

KEY FEATURES & BENEFITS

- ✓ **Controls & Prevents Algae:** Rapidly clears green water and prevents regrowth.
- ✓ **Ultra-Concentrated:** Minimal volume required per dose for maximum cost savings.
- ✓ **Multi-Surface Safe:** Concrete, natural stone, metal, tile, acrylic, and resin features.
- ✓ **Versatile Applications:** Ideal for commercial fountains, reflection pools, and bird baths.

APPLICATION PROTOCOL

1. Heavy Surface Cleaning Pre-Treatment

Mix **2 tbsp per 2 gal** of water. Spray surfaces, allow to air dry, and brush off dead algae before refilling.

2. Initial Fill Dose 5 ppm

Add **1 tsp per 52 gal** (or 1 fl. oz. per 312 gal) when filling fresh water features.

3. Weekly Maintenance 2–3 ppm

Add **1 tsp per 104 gal** weekly to keep water pristine year-round.

QUICK DOSAGE REFERENCE CHART

WATER FEATURE VOLUME	INITIAL TREATMENT (5 PPM)	WEEKLY MAINTENANCE (2–3 PPM)
52 Gallons	1 Teaspoon	½ Teaspoon
104 Gallons	2 Teaspoons	1 Teaspoon
312 Gallons	1 Fluid Ounce (2 Tbsp)	1.5 Teaspoons (~½ Tbsp)
1,000 Gallons	3.2 Fluid Ounces	1.6 Fluid Ounces (10 tsp)

FREQUENTLY ASKED QUESTIONS

Q: Can I use Physan 20 in fish ponds or koi tanks?
A: **No.** Physan 20 must never be used in water containing fish or aquatic fauna.

Q: How much should I use for small fountains (< 5 gallons)?
A: Start with 1–2 drops. Physan 20 is ultra-concentrated; add a few more drops only if algae persists.

Q: Is bubbling/foaming normal and will it harm my fountain?
A: No harm! Foaming indicates slight over-application. It dissipates in ~30 mins; use less next time.

Q: Is it safe for bird baths?
A: Yes! Clean and treat surfaces, allow to air dry, then refill. It safely prevents algae growth.
